Unapproved Routes-Peter Leary 2016-08-18 The delineation and emergence of the Irish border radically reshaped political and social realities across the entire island of Ireland. For those who lived in close quarters with the border, partition was also an intimate and personal occurrence, profoundly implicated in everyday lives. Otherwise mundane activities such as shopping, visiting family, or travelling to church were often complicated by customs restrictions, security policies, and even questions of nationhood and identity. The border became an interface, not just of two jurisdictions, but also between the public, political space of state territory, and the private, familiar spaces of daily life. The effects of political disunity were combined and intertwined with a degree of unity of everyday social life that persisted and in some ways even flourished across, if not always within, the boundaries of both states. On the border, the state was visible to an uncommon degree — as uniformed agents, road blocks, and built environment — at precisely the same point as its limitations were uniquely exposed. For those whose worlds continued to transcend the border, the power and hegemony of either of those states, and the social structures they conditioned, could only ever be incomplete. As a consequence, border residents lived in circumstances that were burdened by inconvenience and imposition, but also endowed with certain choices. Influenced by microhistorical approaches, Unapproved Routes uses a series of discrete ‘histories’ — of the Irish Boundary Commission, the Foyle Fisheries dispute, cockfighting tournaments regularly held on the border, smuggling, and local conflicts over cross-border roads — to explore how the border was experienced and incorporated into people’s lives; emerging, at times, as a powerfully revealing site of popular agency and action.

Landscapes Beyond Land-Arnar Arnason 2012-09-30 Land is embedded in a multitude of material and cultural contexts, through which the human experience of landscape emerges. Ethnographers, with their participative methodologies, long-term co-residence, and concern with the quotidian aspects of the places where they work, are well positioned to describe landscapes in this fullest of senses. The contributors explore how landscapes become known primarily through movement and journeying rather than stasis. Working across four continents, they explain how landscapes are constituted and recollected in the stories people tell of their journeys through them, and how, in turn, these stories are embedded in landscaped forms.

The Papers of Woodrow Wilson-Woodrow Wilson 1962 This massive collection includes all important letters, speeches, interviews, press conferences, and public papers on Woodrow Wilson. The volumes make available as never before the materials essential to understanding Wilson’s personality, his intellectual, religious, and political development, and his careers as educator, writer, orator, and statesman. The Papers not only reveal the private and public man, but also the era in which he lived, making the series additionally valuable to scholars in various fields of history between the 1870’s and the 1920’s.

An Exact Exposition of the Orthodox Faith-St. John of Damascus This edition of An Exact Exposition of the Orthodox Faith comes complete with a Touch-or-Click Table of Contents, divided by each book. An Exact Exposition of the Orthodox Faith (Ekdosis akribes tes orthodoxou pisteos) provides a beautiful summary of the dogmatic writings of the Early Church Fathers. This writing was the first work of Scholasticism in Eastern Christianity and an important influence on later Scholastic works. Saint John of Damascus (c. 676 – 4 December 749) was a Syrian Christian monk and priest. Born and raised in Damascus, he died at his monastery, Mar Saba, near Jerusalem. A polymath whose fields of interest and contribution included law, theology, philosophy, and music, before being ordained, he served as a Chief Administrator to the Muslim caliph of Damascus, wrote works expounding the Christian faith, and composed hymns which are still in everyday use in Eastern Christian monasteries throughout the world. The Catholic Church regards him as a Doctor of the Church, often referred to as the Doctor of the Assumption due to his writings on the Assumption of Mary. You can purchase other wonderful religious works from Wyatt North Publishing.

The Land of Open Graves-Jason De Leon 2015-10-23 In his gripping and provocative debut, anthropologist Jason De León sheds light on one of the most pressing political issues of our time—the human consequences of US immigration policy. The Land of Open Graves reveals the suffering and deaths that occur daily in the Sonoran Desert of Arizona as thousands of undocumented migrants attempt to cross the border from Mexico into the United States. Drawing on the four major fields of anthropology, De León uses an innovative combination of ethnography, archaeology, linguistics, and forensic science to produce a searing critique of “Prevention through Deterrence,” the federal border enforcement policy that encourages migrants to cross in areas characterized by extreme environmental conditions and high risk of death. For two decades, this policy has failed to deter border crossers while successfully turning the rugged terrain of southern Arizona into a killing field. In harrowing detail, De León chronicles the journeys of people who have made dozens of attempts to cross the border and uncovers the stories of the objects and bodies left behind in the desert. The Land of Open Graves will spark debate and controversy.

The Oxford Handbook of the Archaeology and Anthropology of Hunter-Gatherers-Vicki Cummings 2014-04-24 For more than a century, the study of hunting and gathering societies has been central to the
development of both archaeology and anthropology as academic disciplines, and has also generated widespread public interest and debate. The Oxford Handbook of the Archaeology and Anthropology of Hunter-Gatherers provides a comprehensive review of hunter-gatherer studies to date, including critical engagements with older debates, new theoretical perspectives, and renewed obligations for greater engagement between researchers and indigenous communities. Chapters provide in-depth archaeological, historical, and anthropological case-studies, and examine far-reaching questions about human social relations, attitudes to technology, ecology, and management of resources and the environment, as well as issues of diet, health, and gender relations - all central topics in hunter-gatherer research, but also themes that have great relevance for modern global society and its future challenges. The Handbook also provides a strategic vision for how the integration of new methods, approaches, and study regions can ensure that future research into the archaeology and anthropology of hunter-gatherers will continue to deliver penetrating insights into the factors that underlie all human diversity.

**Re-envisioning Sovereignty**—Trudy Jacobsen 2016-04-08 Sovereignty, as a concept, is in a state of flux. In the course of the last century, traditional meanings have been worn away while the limitations of sovereignty have been altered as transnational issues compete with domestic concerns for precedence. This volume presents an interdisciplinary analysis of conceptions of sovereignty. Divided into six overarching elements, it explores a wide range of issues that have altered the theory and practice of state sovereignty, such as: human rights and the use of force for human protection purposes, norms relating to governance, the war on terror, economic globalization, the natural environment and changes in strategic thinking. The authors are acknowledged experts in their respective areas, and discuss the contemporary meaning and relevance of sovereignty and how it relates to the constitution of international order.
