This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 edition. Excerpt: ... (6) Columns for Discount on Purchases and Discount on Notes on the same side of the Cash Book; (c) Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book; (d) Departmental columns in the Sales Book and in the Purchase Book. Controlling Accounts.--The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or Creditors' Ledger. The original Ledger, now much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger. The Balance Sheet.--In the more elementary part of the text, the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise. In the present chapter he was shown how to prepare a similar statement, the Balance Sheet. For all practical...

Oral Biblical Criticism—Casey W. Davis 1999-01-01 The Apostle Paul expected the vast majority of the recipients of his letters to hear, not read, them. He structured his compositions for the ear rather than the eye. Pauline audiences would hear clues to meaning and structure because they had learned to communicate in a world where those clues were essential to understanding. Recognizable structures and patterns were essential for listeners to organize what they heard, to follow, to predict and to remember the flow of communication. Oral Biblical Criticism examines Paul’s Epistle to the Philippians in light of recent study of oral principles of composition and interpretation.

The Daily Discoveries of a Bible Scholar and Manuscript Hunter: A Biography of James Rendel Harris (1852-1941) by Alessandro Falcetta 2018-05-31 This is the first full biography of James Rendel Harris (1852-1941), Bible and patristic scholar, manuscript collector, Quaker theologian, devotional writer, traveller, folklorist, and relief worker. Drawing on published and unpublished sources gathered in the United States, Europe, and the Middle East, many of which were previously unknown, Alessandro Falcetta tells the story of Harris's life and works set against the background of the cultural and political life of contemporary Britain. Falcetta traces the development of Harris's career from Cambridge to Birmingham, the story of his seven journeys to the Middle East, and of his many campaigns, from religious freedom to conscientious objection. The book focuses upon Harris's innovative contributions in the field of textual and literary criticism, his acquisitions of hundreds of manuscripts from the Middle East, his discoveries of early Christian works — in particular the Odes of Solomon — his Quaker beliefs and his studies in the cult of twins. His enormous output and extensive correspondence reveal an indefatigable genius in close contact with the most famous scholars of his time, from Hort to Harnack, Nestle, the 'Sisters of Sinai', and Frazer.

Biblical Interpretation in Early Christian Gospels—Thomas Hatinia 2008-10-18 The second title in a proposed five-volume work; volume two, following on from the volume on Mark's Gospel, concentrates on Matthew’s Gospel. Contributors consider the function of embedded scripture texts in the context of the Gospels written and read/heard in their early Christian settings. The project before 1944, with essays re-written for this book, recognizes that scripture in the compositional history of the gospels and the collection is broad in scope as a result of current interest in the integration of methods (especially historical and narrative ones). Advancements over the last 20 years in the study of genre and narrative criticism have left a void in the study of the function of embedded biblical texts in the Gospels. This collection of essays will move the study of scripture within scripture forwards.

The Biblical World—Katharine J. Dell 2021-07-29 The Biblical World is a comprehensive guide to the contents, historical settings, and social context of the Bible. This new edition is updated with several new chapters as well as a new section on biblical interpretation. Contributions from leading scholars in the field present wide-ranging views not just of biblical materials and their literary and linguistic context, but also of the social institutions, history and archaeology, and religious concepts. New chapters cover topics such as the priesthood and festivals, creation and covenant, ethics, and family life, while a new section on biblical interpretation discusses Jewish and Christian bible translation and key thematic emphases, and modern reader-response and cultural approaches. This revised edition of The Biblical World offers an up-to-date and thorough survey of the Bible and its world, and will continue to be an invaluable resource for students and scholars of the Hebrew Bible and New Testament and their history and interpretation, as well as anyone working on the societies, religions, and political and cultural institutions that created and influenced these texts.

Times of Transition—Sylvie Honigman 2021-06-30 This multidisciplinary study takes a fresh look at Judean history and biblical literature in the late fourth and third centuries BCE. In a major reappraisal of this era, the contributions to this volume depict it as one in which critical changes took place. Until recently, the period from Alexander’s conquest in 332 BCE to the early years of Seleucid domination following Antiochus III’s conquest in 198 BCE was reputed to be poorly documented in material evidence and textual production, buttressing the view that the era from late Persian to Hasmonean times was one of seamless continuity. Biblical scholars believed that no literary activity belonged to the Hellenistic age, and archaeologists were unable to refine their understanding because of a lack of secure chronological markers. However, recent studies are revealing this period as one of major social changes and intense literary activity. Historians and archaeologists have shed new light on the nature of the Hellenistic empires and the relationship between the central power and local entities in ancient imperial settings, and the redating of several biblical texts to the third century BCE challenges the traditional periodization of Judean history. Bringing together Hellenistic history, the archaeology of Judea, and biblical studies, this volume appraises the early Hellenistic period anew as a time of great transition and change and situates Judea within its broader regional and international imperial contexts.

The Biblical World—John Barton 2019-04-25 The Biblical World is a comprehensive guide to the contents, historical settings and social context of the Bible. It presents the fruits of years of specialist study in an accessible form, and is essential reading for anyone who reads the Bible and would like to know more about how and why it came to be. Written by an international collection of experts, the volumes include a full overview of the full range of biblical material, before going on to more detailed discussions of myth and prophecy to poetry and proverbs. Explorations of the historical background are complemented by the findings of archaeology, and the book explores language, law, administration, social life and the arts as well. Major figures of the Bible - including Abraham, Jesus and Paul - are studied in detail, as are the main religious concepts it contains, such as salvation and purity. Also including an examination of how the Bible is viewed today, this monumental work will be an invaluable resource for students, academics and clergy, and for all to whom the Bible is important as a religious or cultural document.

Romans—Thomas R. Schreiner 1998-12-01 An exegetically rigorous and expositionally satisfying commentary on one of the most important Christian documents ever written.

Romans (Baker Exegetical Commentary on the New Testament)— Thomas R. Schreiner 2018-10-16 This substantive evangelical commentary on Romans by a leading biblical scholar is one of the most popular in the award-winning BECNT series (more than 25,000 copies sold) and has been praised as a great preaching commentary. This new edition, updated and revised throughout, reflects Thomas Schreiner’s mature thinking on various
interpretive issues. As with all BECNT volumes, this commentary features the author’s detailed interaction with the Greek text, extensive research, thoughtful verse-by-verse exegesis, and a user-friendly design. It admirably achieves the dual aims of the series—academic sophistication with pastoral sensitivity and accessibility—making it a useful tool for pastors, church leaders, students, and teachers.

Translation and Survival - Tessa Rajak 2009-04-09 A study of the translation of the Hebrew Bible into Greek - a work of seminal importance, without which there would have been no Western Jewish diaspora, and no Christianity. The book places its production in historical context, and examines its role in the religious culture of Jews in the Mediterranean during this period.
