Chinese Working-Class Lives-Hill Gates
2018-03-15 Taiwan’s working class has been shaped by Chinese tradition, by colonialism, and by rapid industrialization. This book defines that class, explores that history, and presents with sensitive honesty the life experiences of some of its women and men. Hill Gates first provides a solid and informative introduction to Taiwan’s history, showing how mainland China, Japan, the convulsions of twentieth-century wars, and the East Asian economic expansion interacted in forming Taiwanese urban life. She introduces nine individuals from Taiwan’s three major ethnic groups to tell the stories of their lives in their own words. The narrators include a fortuneteller, a woman laborer, and a retired air force mechanic. A former spirit medium and a janitor are among the others who speak.

The Anthropology of Religion, Charisma and Ghosts-Stephen Feuchtwang 2010-06-29 China has many religions. But rituals of local temples are none of these. They celebrate many gods and their powers to respond. Gods are invited as welcome guests by appropriate rituals of welcome and communication. Other rituals pacify ghosts and harmful powers. These rituals are rich with their own poetry, a poetry of performance, not just of contemplation. Interpreting this poetry demands revision of theories of ritual and religion. The author has spent over four decades studying Chinese ritual and religion through observation in contemporary China and Taiwan, constantly revising and rethinking theories of religion, ritual and their role in different political regimes.

Religion in Modern Taiwan-Philip Clart 2003-09-30 Religion in Modern Taiwan takes a new look at Taiwan's current religious traditions and their fortunes during the twentieth century. Beginning with the cession of Taiwan to Japan in 1895 and the currents of modernization that accompanied it, the essays move on to explore the developments that have taken place as
Buddhists, Daoists, Christians, non-Han aborigines, and others have confronted, resisted, and adapted to (even thrived in) the many upheavals of the modern period. An overview of Taiwan's current religious scene is followed by a comprehensive look at the state of religion in the country prior to the end of World War II and the return of Taiwan to Chinese sovereignty. The remaining essays probe aspects of change within individual religious traditions. The final chapter analyzes changes that took place in the scholarly study and interpretation of religion in Taiwan during the course of the twentieth century. Religion in Modern Taiwan will be read with interest by students and scholars of Chinese religion, religion in Taiwan, the modern history of Taiwan, and by those concerned with issues of religion and modernization. Contributors: Chang Hsun, Philip Clart, Shiun-wey Huang, Christian Jochim, Charles B. Jones, Paul Katz, André Laliberté, Lee Fong-mao, Randall Nadeau, Julian Pas, Barbara Reed, Murray A. Rubinstein.

A Killing Art-Gillis, Alex 2016-08-01 The eagerly anticipated updated return of a bestselling martial arts classic The leaders of Tae Kwon Do, an Olympic sport and one of the world’s most popular martial arts, are fond of saying that their art is ancient and filled with old dynasties and superhuman feats. In fact, Tae Kwon Do is as full of lies as it is powerful techniques. Since its rough beginnings in the Korean military 60 years ago, the art empowered individuals and nations, but its leaders too often hid the painful truths.
that led to that empowerment, the gangsters, secret-service agents, and dictators who encouraged cheating, corruption, and murder. A Killing Art: The Untold History of Tae Kwon Do takes you into the cults, geisha houses, and crime syndicates that made Tae Kwon Do. It shows how, in the end, a few key leaders kept the art clean and turned it into an empowering art for tens of millions of people in more than 150 countries. A Killing Art is part history and part biography, and a wild ride to enlightenment. This new and revised edition of the bestselling book contains previously unnamed sources and updated chapters.

**Cambodian Buddhism**-Ian Harris 2008-03-11
The study of Cambodian religion has long been hampered by a lack of easily accessible scholarship. This impressive new work by Ian Harris thus fills a major gap and offers English-language scholars a booklength, up-to-date treatment of the religious aspects of Cambodian culture. Beginning with a coherent history of the presence of religion in the country from its inception to the present day, the book goes on to furnish insights into the distinctive nature of Cambodia's important yet overlooked manifestation of Theravada Buddhist tradition and to show how it reestablished itself following almost total annihilation during the Pol Pot period. Historical sections cover the dominant role of tantric Mahayana concepts and rituals under the last great king of Angkor, Jayavarman VII (1181–c. 1220); the rise of Theravada traditions after the collapse of the Angkorian civilization; the impact of foreign influences on the development of the nineteenth-century monastic order; and politicized Buddhism and the Buddhist contribution to an emerging sense of
Khmer nationhood. The Buddhism practiced in Cambodia has much in common with parallel traditions in Thailand and Sri Lanka, yet there are also significant differences. The book concentrates on these and illustrates how a distinctly Cambodian Theravada developed by accommodating itself to premodern Khmer modes of thought. Following the overthrow of Prince Sihanouk in 1970, Cambodia slid rapidly into disorder and violence. Later chapters chart the elimination of institutional Buddhism under the Khmer Rouge and its gradual reemergence after Pol Pot, the restoration of the monastic order's prerevolutionary institutional forms, and the emergence of contemporary Buddhist groupings.

Wealth And Poverty Of Nations-David S. Landes 2015-04-20
The history of nations is a history of haves and have-nots, and as we approach the millennium, the gap between rich and poor countries is widening. In this engrossing and important new work, eminent historian David Landes explores the complex, fascinating and often startling causes of the wealth and poverty of nations. The answers are found not only in the large forces at work in economies: geography, religion, the broad swings of politics, but also in the small surprising details. In Europe, the invention of spectacles doubled the working life of skilled craftsmen, and played a prominent role in the creation of articulated machines, and in China, the failure to adopt the clock fundamentally hindered economic development. The relief of poverty is vital to the survival of us all. As David Landes brilliantly shows, the key to future success lies in understanding the lessons the past has to teach us - lessons uniquely imparted in this groundbreaking and vital book which exemplifies narrative history at its best.

Bullying and Violence in South Korea - Trent Bax 2017-02-10 This book provides a fully-contextualised, multidisciplinary examination of bullying and violence in South Korean society. Bullying and violence has been a pressing societal issue since 2011, having been labelled as a 'social evil' to be eradicated by the government. However, the issue has been incorrectly confined to schools when in fact it is widespread in society and in professional settings, as Bax argues in this original new text. Through twenty in-depth case studies and original case material from a Juvenile Detention Centre, Bax examines the historical, cultural, political and social contexts of bullying and violence to better understand the nature of these crimes, the perpetrators, and how they come together in the broader cultural landscape within which the individual, the family, the school and the community are embedded.

**The Nativist Prophets of Early Islamic Iran**- Patricia Crone
2012-06-28 Patricia Crone's book is about the Iranian response to the Muslim penetration of the Iranian countryside, the revolts subsequently triggered there and the religious communities that these revolts revealed. The book also describes a complex of religious ideas that, however varied in space and unstable over time, has demonstrated a remarkable persistence in Iran across a period of two millennia. The central thesis is that this
complex of ideas has been endemic to the mountain population of Iran and occasionally become epidemic with major consequences for the country, most strikingly in the revolts examined here and in the rise of the Safavids who imposed Shi'ism on Iran. This learned and engaging book by one of the most influential scholars of early Islamic history casts entirely new light on the nature of religion in pre-Islamic Iran and on the persistence of Iranian religious beliefs both outside and inside Islam after the Arab conquest.
