The Sexual Person-Todd A. Salzman 2008-05-21
Two principles capture the essence of the official Catholic position on the morality of sexuality: first, that any human genital act must occur within the framework of heterosexual marriage; second, each and every marriage act must remain open to the transmission of life. In this comprehensive overview of Catholicism and sexuality, theologians Todd A. Salzman and Michael G. Lawler examine and challenge these principles. Remaining firmly within the Catholic tradition, they contend that the church is being inconsistent in its teaching by adopting a dynamic, historically conscious anthropology and worldview on social ethics and the interpretation of scripture while adopting a static, classicist anthropology and worldview on sexual ethics. While some documents from Vatican II, like Gaudium et spes ("the marital act promotes self-giving by which spouses enrich each other"), gave hope for a renewed understanding of sexuality, the church has not carried out the full implications of this approach. In short, say Salzman and Lawler: emphasize relationships, not acts, and recognize Christianity’s historically and culturally conditioned understanding of human sexuality. The Sexual Person draws historically, methodologically, and anthropologically from the best of Catholic tradition and provides a context for current theological debates between traditionalists and revisionists regarding marriage, cohabitation, homosexuality, reproductive technologies, and what it means to be human. This daring and potentially revolutionary book will be sure to provoke constructive dialogue among theologians, and between theologians and the Magisterium.

Sexual Ethics-Todd A. Salzman 2012-05-18
Two principles capture the essence of the Catholic tradition on sexual ethics: that each and every marriage act must remain open to the transmission of life, and that any human genital act must occur within the framework of marriage. In the Catholic tradition, moral sexual activity is institutionalized within the confines of marriage and procreation, and sexual morality is marital morality. But theologians Todd Salzman and Michael Lawler contend that there is a disconnect between many of the Church’s absolute sexual norms and other theological and intellectual developments explicitly recognized and endorsed in the Catholic tradition, especially since the Second Vatican Council. These developments include the shift from a primary static worldview to a historically conscious worldview, one that recognizes reality as dynamic, evolving, changing, and particular. By employing such a historically conscious worldview, alternative claims about the moral legitimacy of controversial topics such as contraception, artificial reproduction, and homosexual marriage can faithfully emerge within a Catholic context. Convinced of the central role that love, desire, and fertility play in a human life, and also in the life of Christian discipleship, the authors propose an understanding of sexuality that leads to the enhancement of human sexual relationships and
flourishing. This comprehensive introduction to Catholic sexual ethics -- complete with thought-provoking study questions at the end of each chapter -- will be sure to stimulate dialogue about sexual morality between Catholic laity, theologians, and the hierarchy. Anyone seeking a credible and informed Catholic sexual ethic will welcome this potentially revolutionary book.

**Virtue and Theological Ethics**-Todd A. Salzman 2018

Salzman and Lawler draw upon foundational insights from virtue and theological ethics to propose a Catholic ethical methodological schema for the twenty-first century. Discussing topics such as natural law, conscience, and human dignity, the authors show how their new method may be used to treat issues of human sexuality in light of Catholic social teaching.

**The Joyful Mystery: Field Notes Toward a Green Thomism**-Christopher J. Thompson 2017

“The gift of this beautiful earth is not to be ignored or regretted; instead, this world is the central setting in which the Christian life is to be attentively lived and faithfully pursued.” Regard for creation and its creatures has been a perennial part of Christian spirituality for centuries. In more recent decades it has been the special concern of Catholic social teaching. Yet many Catholics today are unfamiliar with this aspect of Church thought. And until the splendor of creation is recovered, the path to a vibrant Catholic culture seems cut off. The Joyful Mystery seeks to revive the Church’s practice of integral ecology and encourages a deeper awareness of the presence of God, the Creator and Lord of the universe. In it, author Christopher Thompson draws from the wisdom of St. Thomas Aquinas and the “Green Thomism” he inspires in contemporary life. Readers will come away moved by the presence of God manifest in his glorious cosmos and be drawn to integral ecology as a spiritual response.

**Human Sexuality and the Nuptial Mystery**-Roy R. Jeal 2010-03-08

This collection of essays was originally presented at the St. Margaret’s Consultation on Doctrine, Liturgy, and Preaching held at St. Margaret’s Anglican Church in Winnipeg, Canada in 2008. They consider human sexuality and marriage from a distinctly theological rather than polemical standpoint, aiming to avoid frequently polarized debates. The interesting commonality indicated in the articles is that sex and marriage are not about self-fulfillment, but are outwardly directed, aimed toward the other person, toward growth, maturity, and deepened spirituality, for the benefit of the church, for productive good, and for children. The first section explores theological and ethical issues surrounding human sexuality and aims toward understanding the nature of relationships in these contexts. The second section explores the spiritual nature of marriage and the history of thinking on marriage and family within Christian theology. For those interested in pursuing truly theological engagement with marriage and sexuality, this collection is required reading.

**Marriage As A Conjugal Reality**-Daniel Avila 2018-03-21

Resource for Catholics and others called to promote and defend marriage defined as the union of one man and one woman. Recounts "Marriage Battle of Massachusetts" (1997-2007) and offers theological reflection on why sexual difference matters as the image of God's conjugal love.

**More Than a Provocation**-Stefanie Knauss 2014-04-02

Representations of sexuality in the media and their theologic reflection.

**Gender and Christian Ethics**-Adrian Thatcher 2020-10-22

Provides strong theological arguments for replacing the binary understanding of gender, and for the embracing of sexual minorities.

**A Culture of Engagement**-Cathleen Kaveny 2016-03-01

Religious traditions in the United States are characterized by ongoing tension between assimilation to the broader culture, as typified by mainline Protestant churches, and defiant rejection of cultural incursions, as witnessed by more sectarian movements such as Mormonism and Hassidism. However, legal theorist and Catholic theologian Cathleen Kaveny contends there is a third possibility—a culture of engagement—that accommodates and respects tradition. It also recognizes the need to interact with culture to remain relevant and to offer critiques of social, political, legal, and economic practices. Kaveny suggests that rather than avoid
the crisscross of the religious and secular spheres of life, we should use this conflict as an opportunity to come together and to encounter, challenge, contribute to, and correct one another. Focusing on five broad areas of interest—Law as a Teacher, Religious Liberty and Its Limits, Conversations about Culture, Conversations about Belief, and Cases and Controversies—Kaveny demonstrates how thoughtful and purposeful engagement can contribute to rich, constructive, and difficult discussions between moral and cultural traditions. This provocative collection of Kaveny's articles from Commonweal magazine, substantially revised and updated from their initial publication, provides astonishing insight into a range of hot-button issues like abortion, assisted suicide, government-sponsored torture, contraception, the Ashley Treatment, capital punishment, and the role of religious faith in a pluralistic society. At turns masterful and inspirational, A Culture of Engagement is a welcome reminder of what can be gained when a diversity of experiences and beliefs is brought to bear on American public life.

Engaging the Doctrine of Marriage - Matthew Levering 2020-08-12 This book is the next volume in Levering's Engaging Doctrine series. The prior volume of the series examined the doctrine of creation. The present volume examines the purpose of creation: the marriage of God and humans. God created the cosmos for the purpose of the marriage of God and his people—and through his people, the marriage of God and the entire creation. Given that the central meaning or "prime analogate" of marriage is the marriage of God and humankind, the study of human marriage needs to be shaped by this eschatological goal and foregrounded as a dogmatic theme. After a first chapter defending and explaining the biblical witness to the marriage of God and his people, the book explores various themes: marriage as an image of God, original sin as the fall of the primordial marriage, the cross of Jesus Christ and marital self-sacrificial love, the procreative and unitive ends of marriage, marriage as a sacrament, and marriage's importance for social justice and for the upbuilding of the kingdom of God. Along the way, the book provides an introduction to the key biblical, patristic, medieval, modern, and contemporary thinkers and controversies regarding the doctrine of marriage.

Queer Spiritual Spaces (Open Access) - Kath Browne 2016-05-23 Drawn from extensive, new and rich empirical research across the UK, Canada and USA, Queer Spiritual Spaces investigates the contemporary socio-cultural practices of belief, by those who have historically been, and continue to be, excluded or derided by mainstream religions and alternative spiritualities. As the first monograph to be directly informed by ‘queer’ subjectivities whilst dealing with divergent spiritualities on an international scale, this book explores the recently emerging innovative spaces and integrative practices of queer spiritualities. Its breadth of coverage and keen critical engagement mean it will serve as a theoretically fertile, comprehensive entry point for any scholar wishing to explore the queer spiritual spaces of the twenty-first century.

Americorps NCCC Member Handbook, January 2006 - 2006

The Pedagogies and Politics of Liking - Adam Greteman 2017-02-24 This book explores the usage and significance of the word "like" across a wide range of disciplines, focusing in particular on its influence in education and pedagogy. From the advent of the "like button" on Facebook to the common verbal tic, liking has become an integral part of our everyday lives. By drawing on feminist, queer, and other critical traditions, the authors evaluate this phenomenon in order to interrogate its history, its linguistic function, its role in labor and economics, and its ties to, and separation from, religion. As the notion of "like" becomes more and more ubiquitous, this critical volume demonstrates the need to consider like, liking, and likeability when thinking about the institutions that impact us daily.

Americorps - National Civilian Community Corps (AmeriCorps) 1996

Supper at Emmaus - Glenn W. Olsen 2016 Supper at Emmaus traces various important intellectual topics from the ancient world to the modern period. Generally, as in its treatment of the question of whether the long-standing contrast between cyclical and linear views of history is helpful, it introduces important
thinkers who have considered the question. A preoccupation of the book is the appearance and reappearance across the centuries of patterns used to organize temporal and cultural experience. After an opening essay on transcendental truth and cultural relativism, the second chapter traces a distinction, common in historical writings during the past two centuries, between an alleged ancient classical "cyclic" view of time and history, used to describe the claimed repetitiveness of and similarities between historical events ("nothing is new under the sun"), and a contrasting Jewish-Christian linear view, sometimes described as providential in that it moves through a series of unique events to some end intended by God. In the latter, history is "about something," the education of the human race or the redemption of humankind. As in each of the remaining essays, the book then attempts to draw out the limitations of what the current consensus on this topic has become. It does this for such things as our current understanding of religious toleration, humanism, natural law, and teleology. Some of the essays, such as those on debate about Augustine's understanding of marriage or the concluding illustrated essay on the baroque city of Lecce, are published for the first time. Others are based on previously published contributions to the scholarly literature, though generally each of these chapters concludes with a postscript that engages with current scholarly debate on the subject.

The Invention of Heterosexuality

Jonathan Ned Katz 2014-12-10 “Heterosexuality,” assumed to denote a universal sexual and cultural norm, has been largely exempt from critical scrutiny. In this boldly original work, Jonathan Ned Katz challenges the common notion that the distinction between heterosexuality and homosexuality has been a timeless one. Building on the history of medical terminology, he reveals that as late as 1923, the term “heterosexuality” referred to a “morbid sexual passion,” and that its current usage emerged to legitimate men and women having sex for pleasure. Drawing on the works of Sigmund Freud, James Baldwin, Betty Friedan, and Michel Foucault, The Invention of Heterosexuality considers the effects of heterosexuality’s recently forged primacy on both scientific literature and popular culture. “Lively and provocative.”—Carol Tavris, New York Times Book Review “A valuable primer . . . misses no significant twists in sexual politics.”—Gary Indiana, Village Voice Literary Supplement “One of the most important—if not outright subversive—works to emerge from gay and lesbian studies in years.”—Mark Thompson, The Advocate

T&T Clark Handbook of Christian Ethics

Tobias Winright 2020-12-10 The T&T Clark Handbook of Christian Ethics provides an ecumenical introduction to Christian ethics, its sources, methods, and applications. With contributions by theological ethicists known for their excellence in scholarship and teaching, the essays in this volume offer fresh purchase on, and an agenda for, the discipline of Christian ethics in the 21st century. The essays are organized in three sections, following an introduction that presents the four-font approach and elucidates why it is critically employed through these subsequent sections. The first section explores the sources of Christian ethics, including each of the four fonts: scripture, tradition, experience, and reason. The second section examines fundamental or basic elements of Christian ethics and covers different methods, approaches, and voices in doing Christian ethics, such as natural law, virtue ethics, conscience, responsibility, narrative, worship, and engagement with other religions. The third section addresses current moral issues in politics, medicine, economics, ecology, criminal justice and other related spheres from the perspective of Christian ethics, including war, genetics, neuroethics, end-of-life decisions, marriage, family, work, sexuality, nonhuman animals, migration, aging, policing, incarceration, capital punishment, and more.

The Ethical Demand

Knud Ejler Løgstrup 1997-02-15 Knud Ejler Løgstrup’s The Ethical Demand is the most original influential Danish contribution to moral philosophy in this century. This is the first time that the complete text has been available in English translation. Originally published in 1956, it has again become the subject of widespread interest in Europe, now read in the context of the whole of Løgstrup’s work. The Ethical Demand marks a break not only with utilitarianism and with Kantianism but also with Kierkegaard’s Christian existentialism and with all forms of subjectivism. Yet Løgstrup’s project is not destructive. Rather, it is a presentation of an alternative understanding of interpersonal life. The ethical demand
presupposes that all interaction between human beings involves a basic trust. Its content cannot be derived from any rule. For Løgstrup, there is not Christian morality and secular morality. There is only human morality.

Facing the Other - Nigel Zimmermann  
2015-07-24  What is the significance of the body? What might phenomenology contribute to a theological account of the body? And what is gained by prolonging the overlooked dialogue between St. John Paul II and Emmanuel Levinas? Nigel Zimmermann answers these questions through the agreements and the tensions between two of the most important thinkers of the twentieth century. John Paul II, the Polish pope, philosopher, and theologian, and Emmanuel Levinas, the French-Jewish philosopher of Lithuanian heritage, were provocative thinkers who courageously faced and challenged the assumptions of their age. Both held the human person in high regard and did their thinking with constant reference to God and to theological language. Zimmermann does not shirk from the challenges of each thinker and does not hide their differences. However, he shows how they bequeath a legacy regarding the body that we would overlook at significant ethical peril. We are called, Zimmermann argues, to face the other. In this moment God refuses a banal marginalization and our call to responsibility for the other person is issued in their disarming vulnerability. In the body, philosophy, theology, and ethics converge to call us to glory, even in the paradox of lowly suffering.

The Social Mission of the U.S. Catholic Church - Charles E. Curran 2010-12-16  How does the Church function in the world? What is it called to do, and what does it actually do? Charles E. Curran explores the social mission of the U.S. Catholic Church from a theological perspective, analyzing and assessing four aspects: the importance of social mission, who carries it out, how it is carried out, and the roles that the Church and individual Catholics play in supporting these efforts. In the early and mid-twentieth century the Catholic Church in the United States tended to focus its social mission on its own charities, hospitals, and schools. But the Second Vatican Council called the Church to a new understanding of social mission, deepening its involvement in and commitment to civic, social, and political life in the United States and abroad. Curran devotes particular attention to three issues that have reflected the Church’s strong sense of social mission since that time: abortion, war and peace, and labor. The Social Mission of the U.S. Catholic Church describes the proper role of bishops, institutions, and movements in the Church, but insists that the primary role belongs to all the baptized members of the Church as they live out the social mission in their daily lives.

The Origins of War - Matthew A. Shadle 2011-03-10  Debate rages within the Catholic Church about the ethics of war and peace, but the simple question of why wars begin is too often neglected. Catholics’ assumptions about the causes of conflict are almost always drawn uncritically from international relations theory—a field dominated by liberalism, realism, and Marxism—which is not always consistent with Catholic theology. In The Origins of War, Matthew A. Shadle examines several sources to better understand why war happens. His retrieval of biblical literature and the teachings of figures from church tradition sets the course for the book. Shadle then explores the growing awareness of historical consciousness within the Catholic tradition—the way beliefs and actions are shaped by time, place, and culture. He examines the work of contemporary Catholic thinkers like Pope John Paul II, Jacques Maritain, John Courtney Murray, Dorothy Day, Brian Hehir, and George Weigel. In the constructive part of the book, Shadle analyzes the movement within international relations theory known as constructivism—which proposes that war is largely governed by a set of socially constructed and cultural influences. Constructivism, Shadle claims, presents a way of interpreting international politics that is highly amenable to a Catholic worldview and can provide a new direction for the Christian vocation of peacemaking.

Toward a Phenomenology of Sexual Difference - Sara Heinämaa 2003  Sara Heinämaa rediscovers neglected passages of Le Deuxième Sexe in her quest to follow Simone de Beauvoir's line of thinking. She finds the masterpiece to be grounded in the work of Husserl and Merleau-Ponty.
Toward a Culture of Freedom-Thorwald Lorenzen 2008-03-01 The Ten Commandments belong to the classics of Western culture. They are an authoritative part of the Hebrew and the Christian Scriptures. Since they come to us from an ancient past, it is both necessary and worthwhile to inquire what they may mean for us today. Thorwald Lorenzen contends it is important to hear God's invitation to an alternative lifestyle: you shall not kill, you shall not commit adultery, you shall not covet. His thoughtful reflections on the commandments for today's tumultuous world begin with the God who speaks ten word to liberate God's people from oppression. Grounded in God's liberating yes, the ten words are neither laws nor rules. They are elements for a culture of freedom in which people are invited to celebrate life.

Toward a Fuller Human Identity-Pius Ojara 2006 This book is based on the thought of Gabriel Marcel and offers an introduction to the central categories of Marcel's thought, focusing on his idea of existential humanism. This study deals with the ambivalence of human existence and the concepts of being, ego and bodiliness. The author draws on examples from everyday life with a particular focus on African values and the recovery of the black self.

The Sexual Revolution-Wilhelm Reich 1986-03 The European social revolutions of the early twentieth century provide the framework for an analysis of infantile and adolescent sexuality and conflicts in the institution of marriage

Toward a Psychology of Uncertainty-Doris Brothers 2011-04-12 Since trauma is a thoroughly relational phenomenon, it is highly unpredictable, and cannot be made to fit within the scientific framework Freud so admired. In Toward a Psychology of Uncertainty: Trauma-Centered Psychoanalysis, Doris Brothers urges a return to a trauma-centered psychoanalysis. Making use of relational systems theory, she shows that experiences of uncertainty are continually transformed by the regulatory processes of everyday life such as feeling, knowing, forming categories, making decisions,
using language, creating narratives, sensing time, remembering, forgetting, and fantasizing. Insofar as trauma destroys the certainties that organize psychological life, it plunges our relational systems into chaos and sets the stage for the emergence of rigid, life-constricting relational patterns. These trauma-generated patterns, which often involve denial of sameness and difference, the creation of complexity-reducing dualities, and the transformation of certainty into certitude, figure prominently in virtually all of the complaints for which patients seek analytic treatment. Analysts, she claims, are no more strangers to trauma than are their patients. Using in-depth clinical illustrations, Dr. Brothers demonstrates how a mutual desire to heal and to be healed from trauma draws patients and analysts into their analytic relationships. She recommends the reconceptualization of what has heretofore been considered transference and countertransference in terms of the transformation of experienced uncertainty. In her view the increased ability of both analytic partners to live with uncertainty is the mark of a successful treatment. Dr. Brothers’ perspective sheds fresh light on a variety of topics of great general interest to analysts as well as many of their patients, such as gender, the acceptance of death, faith, cult-like training programs, and burnout. Her discussions of these topics are enlivened by references to contemporary cinema and theatre.

Toward a Prosecutor for the European Union

Volume 1-Katalin Ligeti 2012-12-17 In an era in which the EU's influence in criminal law matters has expanded rapidly, attention has recently turned to the possible creation of a European Public Prosecutor's Office. This two volume work presents the results of a study carried out by a group of European criminal law experts in 2010-2012, with the financial support of the EU Commission, whose aims were to examine in detail current public prosecution systems in the Member States and to scrutinise proposals for a new European office. Volume 1 begins with thorough descriptions of 20 different national legal systems of investigation and prosecution, addressing a range of evidential and procedural safeguards. These will serve as a point of reference for all future research on public prosecutors. Volume 1 also contains a series of cross-cutting studies of the key issues that will inform debates about the creation of a European Public Prosecutor's Office, including studies of vertical cooperation in administrative investigations in subsidy and competition cases, the accession of the EU to the ECHR, judicial control in cooperation in criminal matters, mutual recognition and decentralised enforcement of European competition law. Volume 2 (which will be published in 2013) presents a draft set of model rules for the procedure of the European Public Prosecutor's Office and continues with a set of comparative studies of the national legal systems that cover the gathering of evidence, seizure of assets, arrests, tracking and tracing, prosecution measures, procedural safeguards, the presumption of innocence and the right to silence, access to the file and victim reconciliation. Volume 2 concludes with the final report, written by Professor Ligeti, summarising the findings of the group and reporting on the prospects for the proposed reform.

Toward a Theory of Peace-Randall Caroline Watson Forsberg 2019-12-15 Military analyst, peace activist, teacher, and social theorist Randall Caroline Watson Forsberg (1943–2007) founded the Nuclear Freeze campaign and the Institute for Defense and Disarmament Studies. In “Toward a Theory of Peace,” completed in 1997 and published for the first time here, she delves into a vast literature in psychology, anthropology, archeology, sociology, and history to examine the ways in which changing moral beliefs came to stigmatize forms of "socially sanctioned violence" such as human sacrifice, cannibalism, and slavery, eventually rendering them unacceptable. Could the same process work for war? Edited and with an introduction by political scientists Matthew Evangelista (Cornell University) and Neta C. Crawford (Boston University), both of whom worked with Forsberg.

Toward a Biblical Theology of Marriage-

Ernest D. Martin 2010-03-01 Does the Bible provide a construct for marriage that is relevant for a confused world? This book reflects a pastor's conviction that biblical revelation culminating in Christ does speak to the issues and potentials for marriage in such a world. By focusing on what the biblical vocabulary of marriage, from Genesis to Revelation, may reveal of the Creator-Redeemer's intent for marriage, Ernest D. Martin develops a Christological paradigm for marriage that is consistent and applicable. Pastors, teachers, and counselors will
find biblical faith perspectives useful in responding to the challenges and opportunities they face in the several phases of marital relationships. This short book will greatly benefit anyone seriously concerned with what the Bible says about marriage.

**Power and the Spirit of God : Toward an Experience-Based Pneumatology** - Bernard Cooke Loyola Professor of Theology College of the Holy Cross (Emeritus) 2004-10-28 In this book the distinguished Roman Catholic theologian Bernard Cooke reassesses the long-standing Christian description of divine power. The word "power" evokes the spheres of economic, political, and social life. Cooke suggests, however, that the deepest questions about conflicting powers are theological and concern what Christians have traditionally referred to as "the Holy Spirit" and "salvation."

**The Sexual Revolution** - Wilhelm Reich 2013-07-02 In this book, Wilhelm Reich summarizes the criticism of the prevailing sexual conditions and conflicts as it resulted from his sex-economic medical experiences over a period of years. He demonstrates, by way of individual examples, the general basic traits of the conflicts in present-day sexual living, dealing particularly with the institution of marriage and the revolution in family life as well as with the problems of infantile and adolescent sexuality. He also presents a detailed and revealing study of the sexual revolution that occurred briefly in Soviet Russia in the first few years of their economic revolution. "What we are living through," Reich states, "is a genuine, deep-reaching revolution of cultural living [which] goes to the roots of our emotional, social, and economic existence...The senses of the animal, man, for his natural life functions are awakening from a sleep of thousands of years."

**A Practical Medical Dictionary ...** - Thomas Lathrop Stedman 1921

**Toward a New Enlightenment** - Paul Kurtz 2018-04-17 Paul Kurtz has been the dominant voice of secular humanism over the past thirty years. This compilation of his work reveals the scope of his thinking on the basic topics of our time and his many and varied contributions to the cause of free thought. It focuses on the central issues that have concerned Kurtz throughout his career: ethics, politics, education, religion, science, and pseudoscience. The chapters are linked by a common theme: the need for a new enlightenment, one committed to the use of rationality and skepticism, but also devoted to realizing the highest values of humanist culture. Many writings included here were first published in magazines and journals long unavailable. Some of the essays have never before been published. They now appear as a coherent whole for the first time. Also included is an extensive bibliography of Kurtz's writings. Toward a New Enlightenment is essential for those who know and admire Paul Kurtz's work. It will also be an important resource for students of philosophy, political science, ethics, and religion. Among the chapters are: "Humanist Ethics: Eating the Forbidden Fruit"; "Relevance of Science to Ethics"; "Democracy without Theology"; "Misuses of Civil Disobedience"; "The Limits of Tolerance"; "Skepticism about the Paranormal: Legitimate and Illegitimate"; "Militant Atheism vs. Freedom of Conscience"; "Promethean Love: Unbound"; "The Case for Euthanasia"; and "The New Inquisition in the Schools."

<td><strong>2015-09-23</strong> ADULTERY Recognizing the Signs Stopping It Before It Starts Recovering from the Damage One-half of the young and middle-aged couples in this country will at some time struggle with the painful and destructive results of an affair. Can these marriages be saved? Can the number of shaken marriages be reduced? Psychologist and counselor Henry Virkler has some answers. In this vital book he describes the devastating effects of adultery, how couples can take preventive steps to reduce the likelihood of it happening in their own marriages, and what to do if it does happen. He writes for professional counselors, for pastors, and for those laypersons who find themselves wanting to understand the situation better. While the author is a committed Christian psychologist and counselor, he warns that faith doesn’t automatically safeguard couples from sexual temptation. He shows - how to avoid “innocent” situations that can easily lead to an affair; - what you can do to strengthen your marriage and reduce the possibility that you or your partner will be tempted in an affair; - how to tell if your mate is having an affair, and what to do if your worst fears prove true; - how adultery does not need to lead to divorce if approached in the right way.</td>
