Financial laws around the world can vary from those found in the U.S. In Australia, insolvency laws regulate the affairs of a company that can no longer pay its financial obligations. The most common procedures in the country for handling insolvency concerns are reorganization, liquidation, and voluntary administration. These procedures vary by state and territory, and some states have specific laws governing how businesses are wound up.

Financial crises arising out of the capital crisis in the United States are forcing professions like law and accounting to reinvent themselves. These concepts are relevant to three connected paradigm shifts in the corporate world. From financial capitalism to inclusive capitalism.

What is Globalization

The falling value of the U.S. dollar has led to a significant increase in the number of companies that are adopting international strategies. These strategies include outsourcing, offshoring, and the use of foreign subsidiaries.
