The Green Hell

A Concise History of the World-Merry E. Wiesner-Hanks 2019-05-23 This book tells the story of humankind as producers and reproducers from the Paleolithic to the present. Renowned social and cultural historian Merry E. Wiesner-Hanks brings a new perspective to world history by examining social and cultural developments across the globe, including families and kin groups, social and gender hierarchies, sexuality, race and ethnicity, labor, religions, consumerism, and popular culture. She examines how these structures and attitudes changed over time through local processes and interactions with other cultures, highlighting particularly defined areas such as the growth of cities or the creation of a global trading network. In doing so, she shows how people have always been ordinary, not exceptional, and that human beings have always been social beings, who have always interacted with their environments. The book is divided into four parts: The Beginnings of humankind, The rise of complex societies, and the beginning of empire, and The emergence of the modern world.

The Encyclopedia Britannica-Hugh Chisholm 1911

Pern Peter-F. Klarén 2000 “This latest work in the Oxford country study series on Latin America is an excellent addition to the collection. Scholars of Peru, specialists and non-specialists alike will benefit from the balanced discussion of economic, social, and political issues from the pre-Columbian period to the Fujimori administration. The book covers the latest information on the quipu and the Altiplano. Peru is given significant attention. Civil-military relations, often a somewhat neglected topic in such discussions, are also carefully analyzed. As with all the books in the Oxford series, this study offers a highly useful glossary, as well as maps, tables, some raw photos, and a thorough bibliography. Appropriate for classroom use”–Handbook of Latin American Studies, v. 58.
