Promises of States under International Law

Christian Ehrfeld 2012-10-19

This book analyses state promises in international law, a topic which has received little attention in recent years. It distinguishes promises from other unilateral acts of states, and provides a comprehensive study of the legal nature and consequences of promises in international law. The book includes an assessment of the legal effect of promises, as well as an analysis of the conditions under which a promise may be enforced as an international obligation.

Democratic Statehood in International Law

Jure Vidmar 2013-03-28

This book analyses the relationship between democratic statehood and international law, and examines the ways in which democratic principles can be incorporated into international law. It argues that democratic statehood is not a legal concept, but rather a political ideal that can be translated into international law through the use of international institutions and mechanisms.

Islamic Law and International Law

Emine Enise Yakar 2021-09-30

This book analyses the relationship between Islamic law and international law, and examines the ways in which Islamic principles can be incorporated into international law. It argues that Islamic law is not a legal system, but rather a set of religious guidelines that can be interpreted and applied in a variety of legal contexts. The book includes an analysis of the legal nature and consequences of Islamic law in international law, and an examination of the ways in which Islamic law can be used to resolve disputes between states.

Democratic Statehood and New Wars

International Law and New Wars

Christian Ehrfeld 2017-06-19

This book analyses the relationship between democratic statehood and new wars, and examines the ways in which democratic principles can be incorporated into new wars. It argues that new wars are not a legal concept, but rather a political ideal that can be translated into new wars through the use of international institutions and mechanisms. The book includes an analysis of the legal nature and consequences of new wars in international law, and an examination of the ways in which new wars can be used to resolve disputes between states.
