Violent Acts And Urban Space in Contemporary Tel Aviv: Revisiting Moments of Jewish History Life And Culture. This book explores the interplay between urban space, identity, and violence in the context of modern Tel Aviv. It examines the city's historical evolution, focusing on key moments that shaped its development, from its inception in the early 20th century to the present day. Through an analysis of urban planning, architecture, and public space, the book traces the transformation of Tel Aviv from a small fishing village into a bustling metropolis. It also delves into the social and cultural dimensions of urban violence, considering the ways in which the city has been both a site of conflict and a place of coexistence. By presenting a multifaceted narrative of Tel Aviv's history, the book offers insights into the complex dynamics of urban development and its impact on contemporary Jewish identity. It is a valuable resource for scholars and students of Middle Eastern studies, urban studies, and Jewish history, as well as for those interested in the broader phenomena of urban violence and its role in shaping cultural and historical narratives.
Jerusalem and Belfast since 1994 – how sometimes there has been hopeful change while at other times debilitating stasis and regression. Based on extensive research, fieldwork, and interviews, Scott Bollens shows how seeking peace in these

production of ‘fearscapes’, the contemporary landscapes of fear, constitutes an emergent urban political economy. Informed by and has in turn been shaping urban fear are investigated. A concluding chapter considers divergent potential futures and makes a call for action. The book will appeal to all with an interest in whether, and to what extent, the

discourses on security and fear and the political construction of otherness as a means of exclusion. The spatialization of fear, e.g., through fortification, privatization, and fragmentation, is explored, and the ways in which urban planning is

upon recent studies on urban geopolitics, enriching them from the perspective of ordinary, as opposed to global, cities. Readers will find enlightening analysis of the ways in which urban fear is (re)produced, including by misinformative

comprehensive, critical, exploratory theory of fear, space, and urban planning that unravels the paradoxes of their mutual relations. By focusing especially on the southern European cities of Palermo and Lisbon, the book also aims to expand

Fear, Space and Urban Planning

dynamic collection of explorations into how religion and violence intersect. As such, it will be a key resource for any scholar of Religious Studies, Theology and Religion and Violence, as well as Christian, Jewish, and Islamic Studies.

Well as confronting, violence. The interdisciplinary conversation that takes place challenges assumptions that religious violence is a modern problem that can be fully understood without reference to religious scriptures, beliefs, or history. Book chapter focuses on an important case study from a distinct historical period. Takes us a while. Four chapters address the potential relationships between religions and violence that fit the account and complementing world. This is a dynamic collection of explorations into how religion and violence are addressed. As such, it will be a key resource for any scholar of Religious Studies, Theology and Religion and Violence, as well as Christian, Jewish, and Islamic Studies.

Latin America is one of the most urbanized regions of the world. To understand Latin America today it is important to trace the origins and characteristics of the urban-rural divide, inequalities within urban areas, and the processes for change. This book analyzes the urban-rural divide and its implications for urban planning.

Urban Latin America

Ethnography and personal narrative to illuminate the complex political and emotional kaleidoscopes of these polarized cities. With hostility and competition among groups defined by ethnic, religious, and national identity on the increase across the world, this timely investigation contributes to our understanding of today’s fractured cities and cultures.

Community-Based Urban Violence Prevention (Latin America) (Latin America)

The Politics of Public Space in Republican Rome

Latin America has come of age in the era of advanced urbanism. To understand Latin America today it is important to trace the origins and characteristics of the urban-rural divide, inequalities within urban areas, and the processes for change. This book analyzes the urban-rural divide and its implications for urban planning.

Urban Latin America

Given the crucial importance of urban centers in shaping the Middle East in the modern era, and the ongoing potential of public histories to foster dialogue and reconciliation, this volume is both critical and timely.
