It is written in a way that allows for the exploration of what comfort care and the end of life issues have on health and financial alternatives.

April 17, 2018: Death is a part of life, a natural process that should be discussed with loved ones. Comfort care is one of the most important things that can be provided in these situations. It helps to ease the suffering of the dying. It can be provided to someone who is facing a terminal illness and for those close to them. This includes medical care for symptom control and psychosocial and spiritual support. C1: All care is directed at maximal comfort measures.
