Martha Brae's Two Histories-Jean Besson 2002 Based on historical research and more than thirty years of anthropological fieldwork, this wide-ranging study underlines the importance of Caribbean cultures for anthropology, which has generally marginalized Europe's oldest colonial sphere. Located at

Gender, Kinship and Power-Mary Jo Maynes 2014-01-27 Through twenty engaging essays exploring cultures ranging from ancient Judaic civilization to contemporary Brazil, Gender, Kinship and Power places important contemporary issues related to kinship--such as parental responsibility and female-headed households--in their proper comparative and historical framework.

Mutual Life, Limited-Bill Maurer 2011-06-27 Why are people continually surprised to discover that money is "just" meaning? Mutual Life, Limited spends time among those who, in acknowledging the fictions of finance, are making money anew. It documents ongoing efforts to remake money and finance by Islamic bankers who seek to avoid interest and local currency and reflects critically on their broader implications for scholarship. Based on fieldwork among participants in a local currency system in Khnaca, New York, and among Islamic banking practitioners in the United States, Indonesia, and elsewhere, this book exploits the convergence between the reflexivity of monetary alternatives and social inquiry by questioning the equivalence between money and ethnography. Can money ever be adequate to the value backing it? Can social description ever be adequate to messy
The Blackwell Companion to Law and Society-Austin Sarat 2008-04-15
The Blackwell Companion to Law and Society is an authoritative study of the relationship between law and social interaction. Thirty-two original essays by an international group of expert scholars examine a wide range of critical questions. Authors represent various theoretical, methodological, and political commitments, creating the first truly global overview of the field. Examines the relationship between law and social interactions in thirty-three original essays by international experts in the field. Reflects the world-wide significance of North American law and society scholarship. Addresses classical areas and new themes in law and society research, including: the gap between law on the books and law in action; the complexity of law's effects; law's role in politics; and the intersections of law and identity. Engages the exciting work now being done in England, Europe, Australia, and New Zealand, South Africa, Israel, as well as "Third World" scholarship.

Queen of the Virgins-M. Cynthia Oliver 2009 Beauty pageants are wildly popular in the U.S. Virgin Islands, outnumbering any other single performance event and capturing the attention of the local people from toddlers to seniors. Local beauty contests provide women opportunities to demonstrate talent, style, the values of black womanhood, and the territory's social mores. Queen of the Virgins: Pageantry and Black Womanhood in the Caribbean is a comprehensive look at the centuries-old tradition of these expressions in the Virgin Islands. M. Cynthia Oliver maps the trajectory of pageantry from its colonial precursors at tea meetings, dance dramas, and street festival parades to its current incarnation as the queen show. For the author, pageantry becomes a lens through which to view the region's understanding of gender, race, sexuality, class, and colonial power. Focusing on the queen show, Oliver reveals its twin roots in slave celebrations that parodied white colonial behavior and created creole royal rituals and celebrations heavily influenced by Africanist aesthetics. Using the U.S. Virgin Islands as an intriguing case study, Oliver shows how the pageant continues to reflect, reinforce, and challenge Caribbean culture and the cultural concerns of the feminine. Queen of the Virgin Islands examines the journey of the black woman from degraded body to vaunted queen and how this progression is marked by social unrest, growing middle-class sensibilities, and contemporary sexual and gender politics.

The Place of Law-Austin Sarat 2009-04-21 It has long been standard practice in legal studies to identify the place of law within the social order. And yet, as The Place of Law suggests, the meaning of the concept of "the place of law" is not self-evident. This book helps us see how the law defines territory and attempts to keep things in place; it shows how law can be, and is, used to create particular kinds of places — differentiating, for example, individual property from public land. And it looks at place as a metaphor that organizes the way we see the world. This important new book urges us to ask about the usefulness of metaphors of place in the design of legal regulation.

Confronting Power, Theorizing Gender-Eudine Barritteau 2003 Extrait de la couverture: "This anthology of Caribbean feminist scholarship has several unique features. It exposes gender relations as regimes of power and consolidates and advances indigenous feminist theorizing. A particularly strong section of the collection deconstructs marginality and masculinity in the Caribbean and provides ground-breaking research with policy implications. The major breakthrough is the recognition that this area of research includes both men and women as integral to a more adequate conceptualization of society, polity and economy, thereby enabling scholars to address more fully the realities of social life. The temper of the times suggests that a significant watershed in gender studies has been reached."

The SAGE Handbook of Political Geography-Kevin R Cox 2007-12-18 "A thorough and absorbing tour of the sub-discipline... An essential acquisition for any scholar or teacher interested in geographical perspectives on political process." - Sallie Marston, University of Arizona "This unique book is a true encyclopedia of political geography." - Vladimir Kolossov, Institute of Geography of the Russian Academy of Sciences and Vice President of the IUG The SAGE Handbook of Political Geography provides a highly contextualised and systematic overview of the latest thinking and research in the field. Edited by key scholars, with international contributions from acknowledged authorities on the relevant research, the Handbook is divided into six sections: Scope and Development of Political Geography; the geography of knowledge, conceptualization and scales; Geographies of the State: state theory, territory and central local relations, legal geographies, borders. Participation and representation: citizenship, electoral geography, media public space and social movements. Political Geographies of Difference: class, nationalism, gender, sexuality and culture. Geography Policy and Governance: regulation, welfare, urban space, and planning. Global Political Geographies: imperialism, post-colonialism, globalization, environmental politics, IR, war and migration. The SAGE Handbook of Political Geography is essential reading for upper level students and scholars with an interest in politics and space.

Defining the Caymanian Identity-Christopher A. Williams 2015-12-16 This book analyzes the factions and schisms surging throughout the multicultural, multiethnic, and polarized Cayman Islands to identify who or what is considered a Caymanian. Caymanian traditions have all but been eclipsed, often due to incoming, overpowering cultural sensibilities; with this idea in mind, Williams investigates the pervasive effects of globalization, multiculturalism, economics, and xenophobia on indigenous Caymanian culture.

Readings for a History of Anthropological Theory, Sixth Edition-Paul A. Erickson 2021-11-01 Readings for a History of Anthropological Theory curates and collects many of the most important publications of anthropological thought spanning the last hundred years, building a strong foundation in both classical and contemporary theory. The sixth edition includes seventeen new readings, with a sharpened focus on public anthropologists, gender and sexuality, race and ethnicity, linguistics, anthropology, archaeology, and the Anthropocene. Each piece of writing is accompanied by a short introduction, key terms, study questions, and further readings that elucidate the original text. On its own or together with A History of Anthropological Theory, sixth edition, this anthology offers an unrivaled introduction to the theory of anthropology that reflects not only its history but also the changing nature of the discipline today.

Downtown Ladies-Gina A. Ulysse 2007-01-01 The Caribbean "market woman" is ingrained in the popular imagination as the archetype of black womanhood in countries throughout the region. Challenging this stereotype and other outdated images of black women, Downtown Ladies offers a more complex picture by documenting the history of independent international traders—known as informal commercial importers, or ICIs—who travel abroad to import and export a vast array of consumer goods sold in the public markets of Kingston, Jamaica. Both by-products of and participants in globalization, ICIs operate on multiple levels and, since their emergence in the 1970s, have made significant contributions to the regional, national, and global economies. Gina Ulysse carefully explores how ICIs, determined to be self-employed, struggle with government regulation and other social tensions to negotiate their autonomy. Informing this story of self-fashioning with reflections on her own experience as a young Haitian anthropologist, Ulysse combines the study of political economy with the study of individual and collective identity to reveal the uneven consequences of disrupting traditional class, color, and gender codes in individual societies and around the world.

Experiencing Puerto Rican Citizenship and Cultural Nationalism-J. Font-Guzmán 2016-02-09 Drawing from in-depth interviews with a group of Puerto Ricans who requested a certificate of Puerto Rican citizenship, legal and historical documents, and official reports not publicly accessible, Jacqueline Font-Guzmán shares how some Puerto Ricans construct and experience their citizenship and national identity at the margins of the U.S. nation. Winner of the 2015 Juridical Book of the Year in the category of 'Essay Promoting Critical Thinking and Analysis of Juridical and Social Issues.'
Transnational Legal Processes-Michael Likosky 2002-04-24 linked essays by leading scholars in international law and the social sciences.

Practicing Ethnography in Law-J. Starr 2016-04-30 Practicing Ethnography in Law brings together a selection of top scholars in legal anthropology, social sciences, and law to delineate the scope of the art in ethnographic research strategies. Each of these original essays addresses a particular set of analytical problems and uses these problems to explore issues of ethnographic technique, research methodology, and the theoretical underpinnings of ethnographic legal studies. Subjects explored include the relationship between legal and feminist scholarship, between law and the media, law and globalization, and the usefulness of a wide variety of research techniques: comparative, linguistic, life-history, interview, and archival. This volume will serve as a guide for students who are designing their own research projects, for scholars who are newly exploring the possibilities of ethnographic research, and for experienced ethnographers who are engaged with methodological issues in light of current theoretical developments. The book will be essential reading for courses in anthropological methods, legal anthropology, and sociology and law.

European Integration and Postcolonial Sovereignty Games-Rebecca Adler-Nissen 2013 This book examines how sovereignty works in the context of European integration and postcolonialism. Focusing on a group of micro-polities associated with the European Union, it offers a new understanding of international relations in the context of modern sovereignty. This book offers a systematic and comparative analysis of the Overseas Countries and Territories (OCTs), the EU and the four affected Member States: UK, France, the Netherlands and Denmark. Contributors explore how states and state-like entities play 'sovereignty games' to understand how a group of postcolonial entities may strategically use their ambiguous status in relation to sovereignty. The book examines why former colonies are seeking greater room to manoeuvre on their own, whilst simultaneously developing a close relationship to the supranational EU. Methodologically sophisticated, this interdisciplinary volume combines interviews, participant observation, textual, legal and institutional analysis for a new theoretical approach to understanding the strategic possibilities and subjectivity of non-sovereign entities in international politics. Bringing together research on European integration and postcolonial theory, European Integration and Postcolonial Sovereignty Games will be of interest to students and scholars of International Relations, EU studies, Postcolonial studies, International Law and Political Theory.

Law, Infrastructure and Human Rights-Michael B. Likosky 2006-10-30 From attacks on oil infrastructure in post-war reconstruction Iraq to the laying of gas pipelines in the Amazon Rainforest through indigenous community villages, infrastructure projects are sites of intense human rights struggles. Many state and non-state actors have proposed solutions for handling human rights problems in the context of specific infrastructure projects. Solutions have been aimed for being lofty in principle; however, they have been judged wanting in practice. This book analyzes how human rights are handled in varied contexts and then assesses the feasibility of a common international institutional solution under the auspices of the United Nations to the alleged problem of the inability to translate human rights into practice.

Law and Identity in Mandate Palestine-Assaf Likhovski 2006-12-08 One of the major questions facing the world today is the role of law in shaping identity and in balancing tradition with modernity. In an arid corner of the Mediterranean region in the first decades of the twentieth century, Mandate Palestine was confronted with a particular set of analytically interesting problems. In this book, the author offers a systematic overview - and offering a wide range of examples, insights and analysis - it will be an invaluable resource for researchers and students in anthropology as well as cultural and social geography, cultural studies and sociology.

The Creolisation of London Kinship-Elaine Bauer 2010 In the last 50 years, the United Kingdom has witnessed a growing proportion of mixed African-Caribbean and white British families. With rich new primary evidence of “mixed-race” in the capital city, The Creolisation of London Kinship thoughtfully explores this population. Making an indelible contribution to both kinship research and wider social debates, the book emphasises a long-term evolution of family relationships across generations. Individuals are followed through changing social and historical contexts, seeking to understand in how far many of these transformations may be interpreted as critical, examined, too, are the social, economic, political and historical factors contributing to these changes. The book is an essential guide to those interested in the history of kinship and family relations.

The Routledge Handbook of Archaeological Human Remains and Legislation-Nicholas Marquez-Grant 2011-03-21 Methodologies and legislative frameworks regarding the archaeological excavation, retrieval, analysis, curation and potential reburial of human skeletal remains differ throughout the world. As work forces have become increasingly mobile and international research collaborations are steadily increasing, the need for a more comprehensive understanding of different national research traditions, methodologies and legislative structures within the academic and commercial sector of physical anthropology has arisen. The Routledge Handbook of Archaeological Human Remains and Legislation provides a comprehensive reference for the excavation and study of archaeological remains, from the identification and recovery of remains, to the practice of curation and potential reburial of human remains.

The Handbook of Sociocultural Anthropology-James G. Carrier 2020-09-29 This Handbook is a valuable resource for any anthropologist. By exploring the full breadth of the field, it provides a state of the art overview of the subject - its methodologies, current debates, history and future. It will provide the ultimate source of authoritative, critical descriptions of all the key aspects of the discipline as well as a consideration of the general state of the discipline at a time when there is notable uncertainty about its foundations, composition and direction. Divided into five core sections, the Handbook: examines the changing theoretical and analytical orientations that have led to new ways of carrying out research; presents an analysis of the traditional historical core and how the discipline has changed since 1980; considers the ethnographic regions where work has had the greatest impact on anthropology as a whole; outlines the people and institutions that are the context in which the discipline operates, covering topics from research funding to professional ethics. Bringing together leading international scholars, the Handbook provides a guide to the latest research in social and cultural anthropology. Presenting a systematic overview - and offering a wide range of examples, insights and analysis - it will be an invaluable resource for researchers and students in anthropology as well as cultural and social geography, cultural studies and sociology.

Fictions of Feminine Citizenship-D. Francis 2010-03-01 Reading novels by contemporary women in the Caribbean diaspora alongside against law, history and anthropology, the book argues that Caribbean women’s sexuality has been mobilized for various imperialist and nationalist projects from the nineteenth century to present.

any specific legislation regarding excavation in churchyards? Any specific legislation regarding war graves? Are physical anthropologists involved in the excavation process? Where is the cut-off point between forensic and archaeological human remains (e.g. 100 years, 50 years, 25 years...)? Can human remains be transported abroad for research purposes? What methods of anthropological analysis are mostly used in the country? Are there any methods created in that country which are population-specific? Are there particular ethical issues that need to be considered when excavating human remains, such as religious groups or tribal groups? In addition, an overview of landmark anthropological studies and important collections are provided where appropriate. The entries are contained by an introductory chapter by the editors which establish the objectives and structure of the book, setting it within a wider archaeological framework, and a conclusion which explores the current European and world-wide trends and perspectives in the study of archaeological human remains. The Routledge Handbook of Archaeological Human Remains and Legislation makes a timely, much-needed contribution to the field of physical anthropology and is unique as it combines information on the excavation of human remains and the legislation that guides it, alongside information on the current state of physical anthropology across several continents. It is an indispensable tool for archaeologists involved in the excavation of human remains around the world.
